**Job title:** Software Developer  
**Date:** 12/4/2019

**Job description:** As a software developer in our IT team you will develop applications based on different technologies thus driving the digitalization and automatization of our procedures. You will analyse internal requirements and develop suitable, tailored technical solutions. You are the owner of the entire development process including design, coding, testing phase, implementation and enhancements of the respective software solutions. You are responsible for the planning, execution of the EDI connections as well as the adjustments of the Workflow based ERP Systems.

**Your strengths and qualifications:**

**YOUR STRENGTHS**

- You like to develop, test and launch creative software solutions.
- Your working style is structured and you conduct your tasks in a self-motivated, independent and goal-oriented way.
- Your passion is quality, innovation and digitalization.
- You are flexible and you like to work dynamically and independently.

**YOUR QUALIFICATIONS**

- You have good skills in the fields of object oriented software development with C#, MS SQL as well as with JavaScript and HTML.
- Ideally you already gained experience with UI/UX/Design as well as with Workflow applications.
- You are highly analytical.
- You have good skills in German and English.

**Our offer:**

We offer an attractive salary, extended practice-oriented training in an international field that lasts several months, and an informal, multi-national atmosphere to work in.

All this sounds like an exciting challenge for you? Then send us your CV [online](#) or via email to [jobs@transped.at](mailto:jobs@transped.at)!

We are looking forward to receiving your application!

**P.S.: Did you know that we are one of Austria's Top Employers 2018?**
